

PRODUCT INFORMATION SHEET

Product Name: AUTO TRANS FLUID DX 111

PRODUCT

Bimrose Auto Trans Fluid DX111 is an Automatic Transmission Fluid formulated from high quality base oils blended with an excellent additive pack to provide a lubricant which meets the specific requirements of the GM Dexron® III specifications. Although Dexron® III is a General Motors specification for their vehicles, there are some hydraulic pump manufacturers who recommend the use of this fluid in their hydraulic pump applications.

Viscosity Typical 6.0 cSt @ 100°C

APPLICATION

Designed for automatic transmissions, power steering systems, fluid drive systems and hydraulic systems where a Dexron® III fluid is specified.
