

PRODUCT INFORMATION SHEET

Product Name: COMPRESSOR OIL

PRODUCT

Bimrose Compressor Oil is blended from semi synthetic and highly refined virgin base oils, with anticorrosion, anti-oxidisation and anti-wear additives. The product also has good anti-foam and excellent thermal resistance properties.

Product	68
Viscosity	68
Typical cSt @ 40°C	

APPLICATION

Suitable for use in all types of reciprocating air compressors and high performance drip feed rotary or screw compressors and vacuum pumps. A long service life can be expected in good conditions with a wide range of operating temperatures.

Can be used as an hydraulic oil in non severe applications.

Viscosity choice should be according to manufacturer's recommendations.

STANDARDS

- DIN 51524 Part 2 (HLP) and Part 3 (HVLP)
