PRODUCT INFORMATION SHEET

Product Name: **MULTIUSE 10W40 SM CF**
Semi-synthetic, Premium Engine Oil

PRODUCT

Bimrose Multiuse 10W40 SM CF is a latest generation semi-synthetic ,multi-application engine oil using the latest additive technology to provide excellent performance in late model petrol and diesel engines. It provides the performance reserve required for oil in modern technology, late model, high stress applications. It provides the maximum protection against wear, corrosion, oxidisation and sludge formation and it gives superior protection where vehicles encounter lower temperature operation with cold starts.

Viscosity	Typical 13.1 cSt @ 100^{o}C

APPLICATION

This oil is designed for most modern petrol and diesel engines, both naturally aspirated and turbocharged. It is particularly suitable for multi-valve multi-cam models requiring lower viscosity oil for fuel economy, low emissions and high performance.
It is also well suited to four stroke motor cycles with wet clutches.
This product may not be suitable for modern diesel engines fitted with diesel particulate filters (DPFs).

STANDARDS

Meets or exceeds the following:

SAE Grade:	10W40
API:	SM CF
ACEA:	A3 / B4-04
MB 229.1	VW 50500

CONTAINER SIZES

Bulk, 205 Litres, 20 Litres, 5 Litres.
